

GOLDENSEAL

Goldenseal (*Hydrastis canadensis*) is a perennial herb belonging to the buttercup family. A low, sprawling plant native to North America, Goldenseal is one of the top-selling herbs in the United States.

The dried underground stems (rhizomes) and roots are used to make a number of beneficial products, including liquid extracts. Goldenseal contains berberine, which has been proven to be antimicrobial, anti-tumor, anti-inflammatory, and helps reduce blood sugar levels.

Historically used for various health concerns including skin diseases, today's use of Goldenseal has expanded and includes:

- Respiratory infections
- Allergies
- Eye infections

- Digestive issues
- Canker sores
- Vaginitis
- Urinary tract infections

Manufactured in a GMP certified facility.
Manufactured in the USA. Certified Kosher.
