

TURMERIC

Turmeric contains an essential oil which has sesquiterpenes and yellow pigments known as diarylheptanoids, or curcumin. Turmeric has been widely researched for its role in inflammation involving arthritis, heartburn, stomach pain, gastrointestinal inflammation, hemorrhage, diarrhea, stomach bloating, loss of appetite, jaundice, liver function, irritable bowel syndrome, gallbladder dysfunction, cholesterol metabolism, and fatigue.

The key components in Turmeric work together to help:

- Provide antioxidant activity
- Support healthy liver function and bile secretion
- Support and enhance the proper breakdown of dietary fats
- Promote normal platelet function and circulation in a normal system

- Support and maintain cellular health
- Promote the body's normal, protective response to environmental stressors
- Promote the body's normal resistance function
- Maintain and support healthy joints

Manufactured in a GMP certified facility.
Manufactured in the USA. Certified Kosher.
