

WORMWOOD

Wormwood is a bitter herb traditionally used as medicine because of its neurologic and immunologic activity. The essential oils contained in Wormwood have gastrointestinal properties that work to strengthen the immune system against infection. It is used commonly in cases of intestinal worms and other parasitic infections.

Wormwood has been known to stimulate digestive secretions from the stomach and gallbladder.

Wormwood is so powerful, it's the source for the key ingredient for the herbal drug artemisinin, which is the most powerful antimalarial on the market.

Wormwood can be used for a wide variety of positive benefits. It contains essential oils containing polyphenols, flavonoids, condensed tannins and other compounds with the ability to:

- Support healthy intestinal flora balance
- Protect liver and gallbladder function
- Stimulate gastric secretions
- Promote healthy circulation
- Eliminate intestinal worms, especially pinworms and roundworms

Manufactured in a GMP certified facility.
Manufactured in the USA. Certified Kosher.

SUPPLEMENT FACTS

Serving Size: 2.5mL

Serving Per Container: Approx. 71

	Amount Per Serving	% Daily Value
